WHY ARE WE ALL SO SICK?

Irrefutable peer-reviewed evidence exists for the immediate withdrawal of covid-19 injections.

NZ colorectal surgeons have acknowledged the meteoric rise in cancer, especially younger patients.

What Is Known About the Covid Injections:

- Serious DNA contamination confirmed in vaccine vials, implicated in the global rise of cancer.
- Documented systemic harms: cardiovascular, autoimmunity, neurological, and psychiatric.
- Comprehensive autopsy studies show a direct causal link between vaccination and sudden death.
- Reproductive risks: early harms suppressed but now clear proof of fertility damage. Other countries are backtracking, NZ ploughs on.
- Immune collapse and severe dysregulation of the immune system, increasing the risk & severity of all infections not just Covid.

These products are unsafe, ineffective and contaminated.

SILENCE IS COMPLICITY: TIME CATCHES UP WITH TRUTH

Under NZ law, failure to prevent serious harm is a crime.
The government continues regardless. What will you do?

Obscuring truths, together with wilful blindness, ignorance and the silence of those who know harm is occurring have worsened a global health disaster.

It's time we address the mess.
